DETAILED ACTION

Response to Amendment

1. The amendment received on June 07, 2006 has been entered in full.
2. Applicant's amendments with respect to rejected claims as presented in the amendment filed have been fully considered and are persuasive. Therefore, 35 USC 103 rejections on the respective claims have been withdrawn.

Allowable Subject Matter

Reasons of Allowance:

3. Claims 1, 3-15, 17-21 and 23-34 (renumbered as 1-31) are allowed.

The following is an examiner's statement of reasons of allowance:

Both the instant invention and the closest prior art (the combined invention of Anderson, U.S. Patent No. 6,567,122 and Luster, U.S. Patent No. 5,715,051) are directed to a human/machine interface for a machine vision system which comprises of a processing element and a memory connected to the image element, which further includes a web server and this web server can be accessed by outer world through wired or wireless ports. The closest prior art does teach the screens being construed and arranged for selecting functions **for configuring and controlling** the machine vision system but does not teach the limitation **"the screens being constructed and arranged for selecting functions for training the machine vision system to define measured parameters of the viewed object"** as recited in claims 1, 4, 12, 20 and 29. Therefore claims 1, 4, 12, 20 and 29 are allowed. All other claims depending on claims 1, 4, 12, 20 and 29 are allowable at least by dependency on claims 1, 4, 12, 20 and 29.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
